A Little Wooden Shed Built Far Within the Arctic Circle.

At the head of an almost unknown bay, beyond the waters of Inglefield gulf, the Falcon found temporary rest; and there, under a lofty peak and in the presence of a mighty glacier, we erected out two tiny buildings. The site was chosen upon a terrace in the bed of an ancient glacier and near a rapid brook that ran down to the bay. The studio formed a wing of the larger building, and was built of three inch grooved pine. It was made with double walls, and had an air space of one foot completely enveloping tops, sides and bottom, and an additional air space of one inch formed by felt covering the walls and ceiling. On the side facing the west were placed double doors, and on the south a double skylight and a window. Over three of the exterior walls was fastened the conventional tar paper. In this small abode, the northernmost studio in the world, with a ground space of 15 by 6½ feet, and with a height of less than 8, my comrade and I were to dwell for more than a year.

On Aug 26, 1893, the studio was made habitable with two folding beds, trunks and boxes for seats and receptacles, and oilcloth for floor covering. A long shelf was run along the west side of the room, near the ceiling, and under the skylight was placed a series of shelves A clock with a homelike voice gave an air of habitableness to the room, and from the ceiling was suspended a lamp with a chain for raising and lowering it—always an object of wonder and delight to the childlike Innuit, or Eskimo Near by were two other dwellings, but of sealskin, the homes of the Innuits Myo and Kashoo, who, with their families, had been induced to leave the neighborhood of Cape Parry and come with us.—Frank Wilbert Stokes in Century.

The French Naval Unit.

The old distinctions of battleship and cruiser, coast defense ship, lookout ship, torpedo catcher and all the rest are to disappear utterly from the face of French waters The key words of the new scheme are homogeneity and autonomy The fleet is to be homogeneous through all its units, the units to be self sufficing for all the various functions of war. The archetype of this autonomous unit is the Dupuy de Lome This vessel, generally classed as an armored cruiser, was launched in 1890, but was not completed until some years later. She is of 6,300 tons displacement, 374 feet long, of 51 feet 6 inches beam and 23 feet 6 inches draft. She steams 17.5 knots an hour with natural and 20 with forced draft and is reckoned able to make 4,000 miles at 12.5 knots without coaling. She is armored—and this is her most distinctive feature—with 4.7 inches of steel throughout her whole length and almost over the whole surface of the hull

For heavy armament she carries two 7 6 inch breechloaders and six 6.3 inch canet quick firing guns, besides numerous smaller quick firers The heavy guns are so mounted that she can fire five of them ahead, astern or on either broadside This formidable type Admiral Fournier proposes to strengthen and develop into the unit of his homogeneous fleet, which is to be equal indifferently to every service demanded of a warship.—Blackwood's Magazine.

She glided into the office and quietly approached the editor's desk

"I have written a poem," she began

"Well!" exclaimed the editor with a look and tone intended to annihilate, but she calmly remained.

"I have written a poem on 'My Father's Barn,' and"—

"Oh," interrupted the editor with an extraordinary suavity, "you don't know how I am relieved A poem written on your father's barn, eh? I was afraid it was written on paper and that you wanted me to publish it If I should ever happen to drive past your father's barn, I'll stop and read the poem."—Public Opinion

Systems of Law In Germany.

No fewer than five systems of law are in use in Germany. In moving from one place to another tourists are often greatly puzzled when they find that an act perfectly allowable in one state is a crime in another. A still greater confusion often results when the right of property is considered.

ERIE MEDICAL CO., BUFFALO, N.Y.

A foul breath is one of the greatest afflictions that a man or woman can have. An affliction not only to themselves, but to those with whom they come in contact. A foul breath is a dreadful discourager of affection, or rather of the demonstration of affection. It would probably be more so if people only realized just what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, sick and bilious headache, dizziness, heartburn and distress after eating. These things mean indigestion. They lead to dyspepsia and worse things. They all start with constipation, and constipation is inexcusable because it can be cured—cured easily, quickly and permanently, by the use of Dr. Pierce's Pleasant Pellets. They are a perfect remedy for this most common of all troubles They give to nature just the little help that she needs. They are very mild in their action, and act without any violence whatever. In this, they are different from many preparations offered for a similar purpose. Sometimes the remedy is worse than the disease, Dr. Pierce's Pleasant Pellets are mild, but they are infallibly efficient. They do the work which they are intended to do, without deranging the system in any way. They not only give immediate relief, but the benefit derived from them is permanent. You can stop taking them by and by and there is no danger that you will become a slave to their use. The druggist who tries to sell you something else "just as good," either does not know what he is talking about, or he makes more money on the other thing. If you care more for his prosperity than you do for your own health, take the other thing. If you value your health, insist on having Dr. Pierce's Pleasant Pellets A free sample, of from 4 to 7 doses, will be sent to any address.

FOR PRESIDENT,

WILLIAM J. BRYAN,

OF NEBRASKA.

FOR VICE PRESIDENT,

ARTHUR SEWALL,

OF MAINE.

THE GOLD FORCES HARMONIZED.

It has been evident for years to the most casual observer that there was no difference, except in names, between the gold Republicans and gold Democrats. They voted together to repeal the Bullion Purchase act, and to prevent the passage of the bill to coin the seigniorage over the President's veto. Then they masqueraded as Republicans and Democrats; now they have thrown off their disguise and are consulting as to the best method of assisting McKinley in the Presidential campaign. Some of the gold Democrats thought it best to vote direct for McKinley electors; others thought it would be more to his advantage to put a gold Democratic ticket in the field, and that idea prevailed. A convention therefore, will be held at Indianapolis early next month to nominate a National Democratic gold ticket. The trusts and monopolies have sent out men in every State to see that delegates go to the convention.

It is known that Carlisle, Whitney and other gold Democrats favor the election of McKinley. Why? Because the platform on which McKinley stands endorses the financial policy of Mr. Cleveland, and pledges the Republican party to maintain it until foreign nations agree to change it. If that policy is beneficial to the country why change it, even if foreign nations should consent? If it is not good for the country why not change it now without the consent of other nations?

That the single gold standard policy is a blight to the United States is but too plainly evident. Under its withering influence everything but gold is depreciating. No prudent person invests a dollar in any new enterprise. With constantly falling prices there is no inducement to invest money in new enterprises, and those who are in debt have to dispose of their property, whether it be real estate or the products of the farm, at almost any price the man who has money is disposed to offer. The people who are profiting by this condition of affairs will, directly or indirectly, support McKinley, because his election insures its continuance, while those who believe that the United States is capable of managing its financial affairs, without foreign intervention, and that more money is required to restore prosperity, will vote for Bryan.

MARK HANNA'S STATISTICIAN.

Mark Hanna has engaged a statistician for the campaign who is determined to earn his salary. His duty is to furnish figures for Major McKinley as the campaign progresses. A tabulated statement of the electoral vote just issued by him indicates the accuracy of his calculations. He feels warranted in stating that McKinley will carry at least twenty-eight States and receive 302 electoral votes and a majority of the popular vote. He further states that he has information from prominent and conservative citizens, who carefully calculate the trend of public opinion, that warrants him in placing in the doubtful column, Colorado, Idaho, Louisiana, Missouri, Nevada, North Carolina, Tennessee, Utah and Virginia, with seventy-three electoral votes.

There, that settles it! The barrel statistician of Mr. Hanna has given him 302 electoral votes and placed Colorado, Idaho, Nevada, Utah and several Southern States in the doubtful column and elected McKinley by a large majority.

Who is there with the intelligence of a chimpanzee that believes that Colorado, Idaho, Nevada and Utah are doubtful States? Why, not even the gold conspirators who are doing all in their power to get straight Democratic, Populist and Silver tickets in the field, have the slightest hopes of carrying this State for the gold trust. They know whatever the political manipulators may do, the people will combine on one electoral ticket that is for Bryan and elect it, beyond any doubt whatever.

BRYAN'S ELECTION CERTAIN.

At the headquarters of the Democrats and Populists at Washington the opinion prevails that nothing, money bonds intimidation or anything else but the repeal of the Australian ballot law can defeat Bryan for President. Senator Faulkner of West Virginia says that State is certain for Bryan by a large majority. This opinion is concurred in by Judge Butt, a prominent Republican lawyer, who was the World's Fair Commissioner from that State who says the free silver sentiment is overwhelming in West Virginia.

The Populist and Democratic National Committees have their headquarters in the same building and are working in harmony. From the information which they receive those train loads of people who are hauled to Canton are paid for out of the campaign fund which is the largest that any political party ever had in the United States.

BRYAN AT ALBANY.

The City Hall Square Packed with His Admirers

ALBANY, N. Y., August 26.—William J. Bryan, now on his western trip, addressed a crowd of 10,000 persons, who packed the City Hall Square under the shadows of the State House. Before this demonstration Mr. and Mrs. Bryan sat down to dinner with Senator Hill and prominent Albany Democrats at the Senator's magnificent home known as Wolfert's Roost, whither they were driven directly from the depot. Those who met the Democratic candidate at Mr. Hill's much discussed dinner were Supreme Court Judge C. Cady Herrick and wife, Louis Pratt, Collector of Customs, and wife, Norton Chase, Chairman of the City Democratic Committee. For nearly three hours Mr. Bryan was the guest of the New York Senator, and although every participant in the dinner averred that it was a purely social affair, their descriptions were taken with a grain of salt, it being the general impression that an understanding was reached which will insure to Bryan the support of the party organization in the State.

The crowd began to gather in City Hall Square two hours before the meeting, and when Bryan approached them the people were packed in a solid mass over several acres of pavement and sod. His appearance as he stepped upon the flag-draped platform kindled a fierce shout, which was swelled into three cheers with hundreds of hats and handkerchiefs in the air. He was escorted by Messrs. Chase and Pratt, Recorder Mathews, Postmaster Woods and Collector John Masterson. Senator Hill was not there.

Bryan spoke with more than his customary oratorical force, and considering the size of the crowd he was listened to with most flattering attention. Once the speech was marred by a small knot of Republicans, who interrupted with straggling cheers for McKinley. Before the speech was finished, darkness came on and red lights were kindled on the outskirts of the crowd and threw a crimson glare over the field of heads, and then an alarm of fire just as the orator was ending created diversion. At the close of his speech Bryan shook hands with the people, who climbed on the platform. He was driven to the station, preceded by a band and a crowd of citizens who formed in line and marched along cheering.

BRYAN UP EARLY.

Five Thousand People Cheer Him at Syracuse.

SYRACUSE, August 21.—W. J. Bryan took up his campaigning to-day almost before the sun was up. After a few hours' rest, following the Utica meeting, which did not end until half-past midnight, and after a hurried breakfast, he and Mrs. Bryan boarded a local passenger train which left Utica at 7:15. There was no parlor car and they took seats in the common coach, where the passengers crowded about them for handshaking and autographs. Bryan had little to say about his dinner with Senator Hill, undoubtedly one of the most important events in his New York tour.

"It was purely a social affair," he said. Although the absence of Hill from the political meeting which followed the dinner was commented upon. The remark made by Bryan in his Albany speech, that the support of those Democrats who did not endorse every plank in the platform was expected, was commented upon as significant. There is a general impression among those with the candidate that he received assurance that Hill will declare for the ticket.

Bryan addressed 5,000 people to-day and was enthusiastically greeted. He said that as many people had not sufficient gold or silver to visit the candidates, he thought the candidates might visit the people, and that he was glad to show himself, as one accused as the candidate of anarchists, to let the people judge whether he looked like one bent upon destroying the Government.

The dry house at the Miami Powder Works at Zema, Ohio, blew up yesterday killing two men.

The National League of Republicans in session at Milwaukee selected Detroit as the place for its next meeting.

The New York Republican State Convention nominated Frank S. Black of Troy for Governor on the second ballot.

John Silvers, a farmer living at Bellevue, Sonoma county, California, attempted to poison himself and family with arsenic.

The Civil Service Commission has issued a warning to Federal office holders not to make or take contributions for campaign purposes.

The Italian legation will be withdrawn from Brazil in consequence of recent political conflicts in San Paulo between Italians and Brazilians.

The Democratic and Populist State Central Committees in joint session at Portland, Oregon, agreed to put Bryan and Watson electors in the field.

The Fusion Committees of Democrats, Populists and Bimetallists met in San Francisco and appointed a committee of sixteen to be known as the Joint Congressional Committee with authority to select Congressional candidates. To nominate a candidate will require the votes of four Democrats, four Populists and two Silver men, and such vote for the Congressional nominee shall be final, and the candidate receiving such vote shall be the nominee of the three parties.

The petition of the strikers at Brown's Hoisting Works, Cleveland, Ohio, for an injunction to compel the company to employ the old hands as agreed has been denied by Judge Stone, who decides that the strikers have an adequate remedy in an action for damages for breach of contract.

The Supreme Court of California has handed down a decision affirming the constitutionality of the County Government act under which decision the officials of every county in the State, except San Francisco, will hold their respective office for terms of four years.

The Conference Committee appointed by the Democratic, Populist and Silver Republican State Conventions of Michigan have agreed upon the name "Democratic People's Union Silver Party" for the fusion ticket. The conference agreed upon electors and the report was received with the greatest enthusiasm and adopted by a rising vote.

Senator Dubois of Idaho says that the refusal of the Democrats and Populists to consider a combination with the silver Republicans will have no effect on the electoral ticket. The silver Republicans will nominate the electors selected by the fusion conventions, thus insuring Bryan and Sewall the practically unanimous vote of the State. The silver Republicans will nominate a full State ticket.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

"EXAMINER-JOURNAL" TRANSCONTINENTAL RELAY.

The Riders Arrive and Depart from Reno Nearly Two Hours Ahead of Schedule Time.

The *Examiner-Journal* transcontinental relay passed Reno yesterday at 12:43, being nearly two hours ahead of schedule time. An immense crowd of people gathered on Commercial Row to witness the arrival and departure of the couriers, a change of relay having been arranged at this point. At short intervals Manager Helmold was posted by telegraph as to where the couriers were and the probable time of arrival.

When the telegram came announcing that Courier Chas. Lake had left Verdi and was coming like a shot, the people gathered, and the new riders were in position to grab the packet containing the message to the War Department and also to the New York *Journal*

F. P. Dann, the artist, was on the ground and took several views and prepared to take a view of the arriving and departing couriers, at the moment of the change of relay.

As Charlie Lake rushed down the street, paced by Charlie Nash, the excitement was intense, and cheer after cheer rent the air. The packet was handed to Manuel Simas, the next rider, and Dr. Bergstein, representing Governor Sadler, wrote a hurried message. Meanwhile Dann was taking a snap shot. In a moment Simas was off with Fred White and Wm. Wright as pace makers on a tandem. At Vista, Simas was left to himself to make the run to Clarks. He accomplished the feat of 22 miles in one hour and 26 minutes. Manuel has the best record so far in Nevada. He paid his entire expenses so as not to be classed as a professional.

At Clarks the packet was turned over to John Shaver and George Becker and they sped on to Wadsworth, arriving there at 3:53 P M., the distance from Reno to Wadsworth being covered in three hours and ten minutes.

Will Murray and A. Updike were the riders from Wadsworth to Hot Springs and at 7 o'clock they had turned the packet over to their successors, who arrived at White Plains at 8:43.

Thus on through the night the boys rushed the message forward and it is expected that it will be turned over to the Salt Lake relay at Carlin sometime this afternoon.

INCIDENTS.

Charlie Hamp rode from Truckee to Verdi with Machomich, who has been puffed as the crackerjack mountain rider. Both rode well and did good work over a rough road. Charlie says that Machomich can beat him sprinting, but he can ride away from him and he demonstrated this by reaching Verdi six minutes ahead of him. Had Charlie been carrying the packet he could have turned it over to Lake, and the latter would have nearly reached Laughton's by the time Machomich reached Verdi.

Charlie Lake met a team just this side of Verdi, and to prevent a collision, threw his foot on the front wheel, but this helped to give him a header that knocked the wind out of him and laid him up on the roadside for some four minutes. He was pretty sore after his experience.

Manuel Simas struck a large pool in the road down in the canyon and thought he could ride through it, but when in the center he dropped into a hole, took a header and went out of sight in the muddy water. His tires were punctured three times and he walked a mile, but nevertheless made the best time on the road so far.

George Becker's wheel went to pieces and John Shaver took up the packet and rode on and into Wadsworth. When he arrived there, whistles were blowing, bells ringing and other enthusiasm displayed. All of Wadsworth were out. The change was quickly made and Will Murray caught the packet and sped out of Wadsworth, followed by his substitute, A. Updike. At the bridge east of Wadsworth Murray was detained about five minutes by a freight train, and about two and a half miles further on was again delayed by a freight. Here he lost sight of his partner, Updike, and did not see him again until after having been at Hot Springs sixteen minutes, when Updike arrived. This is considered the heaviest piece of road on the division, and it was shown to be so by Will Murray and colleague having to walk over eight miles. Another trial was the fine dust of the desert and no water to drink. Neither of the boys were in good training and really had the hardest road to cover.

At Hot Springs Murray turned the packet over to Lingstrom and his partner, Bowman. The latter had bad luck and punctured both tires a mile and a half out, and ended by going over a bank, badly demoralizing his bloomers and other apparel as well as wheel. He walked back to the Springs. Lingstrom covered his run without serious trouble arriving at White Plains in an hour and 43 minutes, but his wheel was gone up at the end of his relay.

Ed Worlan and T. DeLaMatyr took up the run from White Plains to Lovelock, but up to 1 o'clock had not been heard from.

A Soldier Transcontinental Bicyclist.

Lieutenant F. E. Farnham of the New York State militia arrived in town yesterday, having crossed the continent on a wheel. He has been on the road five weeks. Lieutenant Farnham is on what is termed half military duty and is carrying dispatches to Los Angeles. He is also making careful notes of the road and topography of the country through which he passes. He seemed disinclined to give any special reasons for his trip, but simply stated that his trip was for the purposes of investigation and a report to his superiors.

BACK FROM WASHINGTON.

The Ohio Valley and the West Solid for Silver.

C. D. Van Duzer, Nevada's efficient Land Agent at Washington, returned yesterday from the East. He has been on a tour through Kentucky and Ohio and says the people are enthusiastic for Bryan and free coinage. He addressed the citizens at various places along the railroad in Nevada, and the sentiment east of Wadsworth is unanimous for silver. He addressed a large meeting at Lovelock night before last and the sturdy farmers of that locality made the air resound with cheers for Bryan and free coinage.

Mr. Van Duzer says he never saw such enthusiasm for a cause as was exhibited in the Ohio valley. The people look on Bryan as a second Lincoln, and business men, farmers, and the working people generally are for free coinage, as they say it is the only thing that will restore prosperity. Thousands have deserted the Republican party since it sold out to the gold men and declared against silver.

The whole western country is enthusiastic for Bryan and people swear the American nation shall not be a financial dependency on European money kings if their votes can prevent it.

A Wedding.

A quiet wedding occurred at the residence of A. Frandsen yesterday at 2 o'clock, in which G. R. Dean of Wadsworth was married to Miss Lillie Westfall of Reno. Rev. N. L. NEW YORK REPUBLICANS.

Congressman Black Nominated for Governor.

SARATOGA, N. Y., August 26.—The Republican State Convention met at 11 45. Mr. Sheard of Herkimer answered Warner Miller's speech of last evening. He denied that there had been any fraud in the primaries. Balloting for Governor was then resumed. Congressman Frank S. Black of Troy was nominated for Governor on the second ballot. After it was found that Black was nominated, Aldridge's name was withdrawn and Black's nomination was made unanimous. Timothy L. Woodruff of Brooklyn was nominated for Lieutenant-Governor on the first ballot. The secretary was directed to cast the vote of the convention for Irving G. Vann of Syracuse for Associate Judge of the Court of Appeals. The convention adjourned sine die.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness, yield to Electric Bitters. Fifty cents and $1 per bottle at S. J. Hodgkinson's drug store.

WATCHES.

Some Facts Concerning the Styles—The Great Number of Watches Used.

In this country almost everybody carries a watch. Probably nine-tenths of the men and great numbers of women and many young people carry watches. In the best trade of the city many more watches of small size are sold than of silver; of all the watches sold throughout the country about 90 per cent are of gold. The percentage of gold watches is increasing.

The fashionable watch of the day is open face. The sale of open faced watches is increasing, especially in fine watches, but it is increasing also in watches of other grades. Of fine gold watches sold in the city probably two-thirds are now made open faced. Of all the watches sold in the United States, gold and silver, probably from a quarter to a third are now made open faced.

The modern watch has for one of its characteristics thinness. A man's watch, which is now made more especially to wear with evening dress and is all the time growing in favor, is a plain, thin, open faced gold watch, which takes up but little room in the pocket. Perfect in its simplicity, this watch is at the same time of fine workmanship and great beauty. It sells at $100. A gold watch not so thin nor so finely finished, but a very handsome modern watch and an excellent timekeeper, by the same makers and bearing their name, can be bought in open face, the case of 18 carat gold, for $65; in double case for $70.

But gold watches and good watches, too, can be bought for very much less than these prices—in fact, there never was a time when watches generally were made in such tasteful shapes, or when they were so good for the money or so cheap as now.

Taking all the grades together, the American production of watches is about 4,000 daily. The importation of watches amounts to about the same number. One might at first wonder what becomes of all these watches. A great number are taken up annually by the new buyers coming into the market for the first time out of the constant and large increase in the population. Great as the percentage of watch owners now is in this country, that also is increasing. Many immigrants buy watches as soon as they get the money. Some men own more than one watch. Watches wear out or their owners lay them aside for a better watch or for one of newer style. Watches are lost and destroyed, and when one comes to take all these things into consideration it will be seen that the great production of watches now is in large measure easily accounted for.—New York Sun.

Parson's Temple.

Gambling houses are temples where the most sordid and turbulent passions combine. There no spectator can be indifferent. A dollar a small square of paper, interests more than the loss of an empire or the ruin of an unoffending group of infants and their nearest relatives.—Zimmermann.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diamondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts. and $1.

TO CLEANSE THE SYSTEM

Effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently overcome habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds, or fevers, use Syrup of Figs.

Mrs. B. E. Hunter is the busy woman who has in less than four years, here in Reno, sold *Thirteen Thousand Seven Hundred* dollars worth of Viavi remedies. The reason so much has been sold is simply because they are the grandest remedies in the world and will not fail to cure if used as recommended. Gentlemen who have stomach troubles, come and get some of our tabloids; you will never regret it. Any person who is ill, come and see if we have not a remedy that will cure you.

A Mistake Corrected.

The Secretary of the Press Association sent out notice to the members the other day saying the second annual meeting would be held on September 16th. He made a mistake. It should have read Wednesday, September 23d. State papers will confer a favor by publishing this correction and governing themselves accordingly.

A Masterpiece That Long Puzzled the Antiquarians of Europe.

The workmanship of the vase and the material of which it is composed long exercised the ingenuity of some of the greatest antiquarians in Europe. Breval believed it to be chalcedony, Bartoli, Montfaucon and others, sardonyx; Count Fezi, amethyst; De la Chausse and Mason, agate, while Venuti decided that it was paste. Wedgwood's examination of the vase proved the last opinion to be the correct one A layer of white glass had been fused on a dark blue body, the exquisite figures being afterward produced in this layer by cutting down to the blue by the gem engraver, after the manner of real cameos. Wedgwood also discovered that the vase had at some time been broken and repaired It was his opinion that the head which formed the bottom of the vase was a piece of some other work that had been cut down and inserted in the place of the original bottom, which had probably been destroyed at the time the vase itself was broken.

By the autumn of 1789 Wedgwood, after many failures, had succeeded in his arduous undertaking, and the first perfect copy, made in the famous jasper ware, was finished. Several more copies were subsequently made, though the exact number does not seem at all certain These were of various degrees of perfection and varied in size and color. Originally sold at from 30 to 50 guineas each, according to excellence of finish, time has, of course, considerably enhanced their value, and some years ago, at the sale of the Martineau collection, one sold for £294

In 1810 the Duke of Portland placed the vase in the British museum, where some 35 years afterward it was wantonly broken to atoms by a drunken visitor. After being skillfully repaired it was placed for additional safety with the gems

Authorities are by no means agreed as to the subject of the bas-relief, though various explanations have been offered. According to the museum catalogue, the composition represents on the obverse Thetis consenting to be the bride of Peleus in the presence of Poseidon and Eros, on the reverse, Peleus and Thetis on Mount Pelion, and on the bottom of the vase (now detached) a youthful bust of Paris.—Good Words.

Felling a Dangerous Chimney.

There is only one way of saving a chimney out of plumb from collapse if the lead increases—that is, to cut a slice out of the masonry on the other side, so that it may sink on that side and bring it straight But that method, though efficacious at times, destroys the structure The only other method is to pull down and build again, and there are two ways of doing that One is to pull the chimney down stone by stone, beginning at the top, a tedious method and a terribly risky one if the structure be tottering to fall The other method the writer has often seen practiced in Lancashire and Yorkshire At a mill a few miles outside of Manchester, for instance, a dangerous chimney had to be "felled" not long ago, and the contractor started to cut away the brickwork at the base on five out of its eight sides Once, thinking it was about to settle on him, he and his men hurried away, but the fall did not take place, and they returned to work. The gaps were propped up with timber and the structure supported in this way till the proper time Then the wood was soaked with paraffin and daubed with rosin and ignited

The flames and smoke poured up the chimney with a great roar, and the daring man lingered at the foot for a quarter of an hour, feeding the flame at one point so the wood might collapse there first and the chimney take that direction in its fall At length the balks gave way, the chimney tottered, then leaned over in a circular fashion and finally collapsed in the middle and fell in a heap The climber told the writer that he distinctly preferred to bring a chimney down in that way, for once, while taking down a shaft in a north Lancashire district, he heard it groan and creak and had only time to slip down the rope and rush away when it fell.—Chambers' Journal.

Care of the Ears.

During this "sweaty weather" the dirt will accumulate in the ears of the little tots old enough to play out of doors, and it must be remembered that ear wax is not dirt, and mothers ought to be very careful in cleaning children's ears not to gouge out the wax with sharp pointed instruments The wax is intended to protect the ear and should not be disturbed, except that part which has already worked its way out Another thing about ears is that they should not be pulled and boxed Perhaps this may seem the most convenient and convincing mode of punishment when the child is naughty and the mother is tired and cross, but it should never be indulged in Both pulling and boxing may inflame the tissue that holds the auricle in place and induce hardness of hearing and even perfect deafness The drumhead or elastic membrane just within the ear has often been seriously injured and severe illness caused by severely boxing the ears.—Philadelphia Times

THE CHILDREN:

Only to keep them so—
Soft, warm and young—
The woe, feeble fingers,
The babbling tongue.
Tears that we kiss away,
Smiles that we win,
Careless of knowledge,
As guiltless of sin.

Only to keep them so,
Frank, true and pure,
Of our full wisdom
So lovingly sure.
Our frown all they shrink from,
Our fiat their law,
Our store whence all gladness
They fearlessly draw

Only to keep them so—
Sweet hands that cling,
Sweet lips that laugh for us,
Sweet tones that ring:
Curls that we train to wave,
Feet that we guide,
Each fresh step a wonder,
Each new word a pride.

Only to keep them so
Women and men
Are the tinies that circled us
Lovingly then;
Gentle and good to us,
Patient and strong,
Guarding our weaknesses,
Bearing us long

Paul Revere's Tower.

It is saddening for the patriotic tourist after he has gazed with reverence at the towers of old Christ church to be told that he is not seeing the original windows from which Paul Revere hung out his lanterns, but a copy, the real tower having been blown down in the great gale of 1804. However, there are plenty of genuine relics inside—where the vast majority of Boston never goes. There are still the old deep window seats, the balcony surrounding the church, with its supporting pillars and upper arches; the top "slaves' gallery," and the antique pews. The bottom of the ancient pulpit of hourglass shape is left us, but the top was given away by the church officials in 1820 The clock under the rail has told of the flight of the man with the scythe for 150 years, the "Vinegar Bible," prayer books, and silver communion service bearing the royal arms were gifts from King George II in 1733, the huge christening basin came from a parishioner in 1730 The marble bust of Washington against the wall was the earliest memorial erected to the Father of His Country, having been placed in position but ten years [illegible] Traveller.

For your Protection.—Catarrh "Cures" or Tonics for Catarrh in liquid form to be taken internally, usually contain either Mercury or Iodide of Potassa, or both, which are injurious if too long taken. Catarrh is a local, not a blood disease, caused by sudden change to cold or damp weather It starts in the nasal passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the results of catarrh will follow; severe pain in the head, a roaring sound in the ears, bad breath, and oftentimes an offensive discharge. The remedy should be quick to allay inflammation and heal the membrane. Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price. 50 cents.

SUMMONS.

IN THE SECOND JUDICIAL DISTRICT Court of the State of Nevada, in and for Washoe county.

The State of Nevada sends to Margaret Dodge greeting: You are hereby required to appear in an action commenced against you as defendant by Charles H. Dodge as plaintiff in the Second Judicial District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint The action is brought to recover a decree dissolving the bonds of matrimony existing between the plaintiff and defendant on the grounds of desertion, commencing on or about the month of June, 1894, and continuing up to the date of filing the complaint herein, said desertion being wilful, without cause, and against the will and without the consent of plaintiff herein, all of which will more fully appear from the complaint, which is on file in the office of the Clerk of said Court, at Reno, in said county, and to which you are especially referred. And you are further notified that if you fail to appear and answer said complaint the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the seal of said Court, at Reno, this 31st day of July, A. D. 1896.
